Today neighbourhood officers stopped and spoke to two people seen riding e-scooters in #FarnhamCommon. Please remember it is illegal to use these in a public place and you are at risk of losing them. #C9791

E-SCOOTERS

What you need to know

Did you know it's illegal to use a privately owned electric scooter (e-scooter) in public?

This is because e-scooters are classed as motor vehicles. So, in theory, this means that you need an MOT, tax and insurance to use one, however it isn't currently possible to register e-scooters in this way.

Privately owned e-scooters can only be used on private roads with the permission of the landowner.

You cannot use a privately owned e-scooter on the pavement or in a public space. If you do then you risk getting a large fine, points on your driving licence and your e-scooter could be seized.

Some parts of the UK are running government funded rental e-scooters. If you're over 16 and have a full or provisional driving licence then you can use these on roads and cycle paths.

Check that your insurance covers you as AM,
